The text of those sections of Title 35, U.S. Code not included in this action can be found 1.

in a prior Office action.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in

37 CFR 1.17(e), was filed in this application after allowance or after an Office action under Ex

Parte Quayle, 25 USPQ 74, 453 O.G. 213 (Comm'r Pat. 1935). Since this application is eligible

for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been

timely paid, prosecution in this application has been reopened pursuant to 37 CFR 1.114.

Applicant's submission filed on November 8, 2004 has been entered.

Election/Restrictions

Applicant elected without traverse Species I, shown in Figs. 1-4 in the reply filed on June 3.

11, 2002.

Drawings

4. Figure 8B should be designated by a legend such as -- Prior Art-- because only that which

is old is illustrated. See MPEP § 608.02(g).

5. The drawings are objected to as failing to comply with: Application/Control Number: 09/853,038 Page 3

Art Unit: 3679

a. 37 CFR 1.84(p)(4) because reference character "R" has been used to designate a

radius of curvature (see for example page 3, line 11); a surface at page 29, lines 3 & 6;

and a root at page 31, line last.

b. 37 CFR 1.84(p)(5) because reference numeral 100 is mentioned on pages 30 & 31

but does not appear in the drawings.

6. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to

the Office action to avoid abandonment of the application. Any amended replacement drawing

sheet should include all of the figures appearing on the immediate prior version of the sheet,

even if only one figure is being amended. The replacement sheet(s) should be labeled

"Replacement Sheet" in the page header (as per 37 CFR 1.84(c)) so as not to obstruct any portion

of the drawing figures. If the changes are not accepted by the examiner, the applicant will be

notified and informed of any required corrective action in the next Office action. The objection

to the drawings will not be held in abeyance.

Specification

7. The lengthy specification has not been checked to the extent necessary to determine the

presence of all possible minor errors. Applicant's cooperation is requested in correcting any

errors of which applicant may become aware in the specification.

8. The disclosure is objected to because:

Application/Control Number: 09/853,038

Art Unit: 3679

a. Page 17, line 12 includes the phrase "one surface, or a round surface". It is not clear what the difference between "one surface" and "a round surface" is such that they should be mentioned in the alternative.

Page 4 ·

- b. The paragraph bridging pages 23 & 24 has been amended to include a sentence which includes the phrase "the relief portions . . . is connected". See the amendment filed February 20, 2004.
- c. The paragraphs at pages 30 & 31 begin with the term "proportion 100" but the meaning of the term is unknown.
- d. Tables 1 & 2 are untitled.
- e. The meaning of the circles and dashes in Table 1 is unknown.
- f. Table 2 is sketchy and cryptic. What "prior art" and "examples" is it referring to? What is the relevance of a proportion taken from measurements of two different entities (i.e. prior art and examples).

Claim Rejections - 35 USC § 112

- 9. Claim 2 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.
 - a. Claim 2 recites the limitation "said needle rollers" in line 5. There is insufficient antecedent basis for this limitation in the claim.
 - b. Claim 2 is incomplete for omitting essential structural cooperative relationship between the "needle rollers" and every other elements of the claimed invention, such

Application/Control Number: 09/853,038

Art Unit: 3679

omission amounting to a gap between the necessary structural connections. In other words, it is not enough to simply delete the word "said" in line 5 to overcome the rejection of claim 2 under 112(2). In order to overcome these grounds for rejection, the claims must positively recite the structural relationship between the needle rollers and the other elements of the invention as was done in the original claims.

Page 5

Allowable Subject Matter

- 10. Claims 3-5 & 7 are allowed.
- 11. Claim 2 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Conclusion

12. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Greg Binda whose telephone number is (703) 305-2869. The examiner can normally be reached on M-F 9:30 am to 7:00 pm with alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Daniel P. Stodola can be reached on (703) 308-2686. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
